PERSONAL PROJECTS

Cricket Scorecard

- A web-app where you can enter the ball by ball detail of a cricket match. The app will then update the relevant details like that of player details, strike change, total score, extras and other data.
- <https://github.com/team-gen-y/Scorecard>

uDonor

- <https://github.com/chayanbansal9195/uDonor>
- Concept: Aggregator for NGOS to make it easy for people to donate.
